Texas Vaccine Providers Webinar

Tuesday, April 19th, 2022

Disclaimer

The information presented today is based on CDC's recent guidance and MAY change.

Tuesday, April 19th, 2022

Discussion Topics

Opening Remarks – Tony Aragon, MS

COVID-19 Recruitment – Garrett Cottom, BS

COVID-19 Vaccine Clinical Guidance – Cheryl Garcia, BSN, RN

COVID-19 Vaccine Product Ordering Updates – Oscar Paz

Live Q&A

Texas Department of State
Health Services

Opening Remarks

Tony Aragon, MS

Director | Immunization Section

Individuals ≥ 50 yrs Eligible for 2nd Booster By Month (All Vaccines)

Individuals ≥ 50 yrs Eligible for 2nd Booster By Month (All Vaccines) ³	Total
22-Apr	3,081,409
22-May	410,329
22-Jun	118,731
22-Jul	70,893

1. Fully Vaccinated includes second doses of Moderna and Pfizer and single doses of Janssen.
2. First Booster doses includes all additional/booster doses administered on or after 8/13/21.
3. Second booster dose projected for 4 months post first booster dose by month.

COVID-19 Vaccine Recruitment

Garrett Cottom, BS

Director | COVID-19 Program – Immunization Section

COVID-19 Vaccine Provider

Recruitment Webinar

Initiative: To recruit TVFC Providers to enroll in the COVID-19 Program

Target Audience: Any provider that provides care to children, especially 6mo through 4 years.

When: April 20th, 2022, from 11 a.m. – 12 p.m. (CST)

Please use the link below to register for this event:

COVID-19 Vaccine: Storage And Handling

TEXAS
Health and Human
Services

Texas Department of State
Health Services

CDC COVID-19 Vaccine Storage & Handling Training

All staff members who receive vaccine deliveries as well as those who handle or administer vaccines should be trained in vaccine storage and handling [SOPs](#).

Storage and handling training should be completed:

- As part of new employee orientation
- Annually as a refresher for all staff involved in immunization and vaccine storage and handling activities
- Whenever new vaccines are added to inventory
- Whenever recommendations for storage and handling of vaccines are updated

<https://www.cdc.gov/vaccines/hcp/admin/storage/toolkit/storage-handling-toolkit.pdf>

<https://www2a.cdc.gov/nip/isd/ycts/mod1/courses/sh/ce.asp>

SECTION TWO: Staff and Training

Vaccine storage and handling practices are only as effective as the staff that implements them. Staff that is well-trained in general storage and handling principles and organization-specific storage and handling standard operating procedures (SOPs) is critical to ensuring vaccine supply potency and patient safety.

Staff Training

All staff members who receive vaccine deliveries as well as those who handle or administer vaccines should be trained in vaccine-related practices and be familiar with your facility's storage and handling SOPs. If you are a VFC provider or have vaccines purchased with public funds, contact your [immunization program](#)* for specific state requirements related to training, policies, and procedures.

Helpful Tip!

Online Training Resources

CDC's [You Call the Shots: Vaccine Storage and Handling](#)[†] is a free, online training module focused on storage and handling requirements.

Check with your [immunization program](#)* and professional organizations to see what vaccine storage and handling training resources they offer.

Storage and Handling SOPs

- ✓ CDC recommends your facility develop and maintain clearly written, detailed, and up-to-date storage and handling standard operating procedures (SOPs). SOPs will help your facility stay organized, serve as a reference and training tool, and ensure proper vaccine management. SOPs help ensure proper procedures are followed and problems are identified, reported, and corrected. SOPs should also provide guidance for emergencies such as equipment malfunctions, power failures, or natural disasters.

Storage and handling plans and SOPs should contain plans and information for three major areas (see the [Vaccine Storage and Handling SOP Worksheet](#)):

- General information—include contact information for vaccine manufacturers, equipment service providers, and important facility staff, as well as job descriptions, regularly used forms, and staff training requirements
- Routine storage and handling SOPs—include information for all aspects of vaccine inventory management, from ordering to monitoring storage conditions
- Emergency vaccine storage, handling, and transport SOPs—outline steps to be taken in the event of equipment malfunctions, power failures, natural disasters, or other emergencies that might compromise vaccine storage conditions

Worksheets to assist you in developing your organization's routine and emergency SOPs are located in the resources section.

- ✓ Train staff on routine vaccine storage and handling and emergency SOPs. Keep SOPs near vaccine storage units and make sure staff knows where to find them. Document all training completed with dates and participant names.
- ✓ Storage and handling training should be completed:
 - As part of new employee orientation
 - Annually as a refresher for all staff involved in immunization and vaccine storage and handling activities
 - Whenever new vaccines are added to inventory
 - Whenever recommendations for storage and handling of vaccines are updated

* Immunization programs: www.cdc.gov/vaccines/imz-managers/awardee-imz-websites.html

[†] You Call the Shots: Vaccine Storage and Handling: www.cdc.gov/vaccines/ed/youcalltheshots.html

CDC COVID-19 Vaccine Storage Units

The CDC and DSHS Immunization Section recommends the following types of units, listed in preferential order:

- Pharmaceutical/purpose-built units
- Stand-alone, single-purpose refrigerator and stand-alone single purpose freezer
- Combination household unit
 - In the event a combination household unit is used, the site should only use the refrigerator section and obtain a separate stand-alone freezer. Refrigerated vaccine is to be stored in the refrigerator component of the combination unit and frozen vaccine will be stored in the stand-alone freezer.
- Dorm-style and small combination refrigerator and freezer units with a single external door **are never allowed for the storage of the COVID-19 vaccine.**

<https://dshs.texas.gov/immunize/covid19/COVID-19-Provider-Manual.pdf>

https://doh.wa.gov/sites/default/files/legacy/Documents/Pubs//348-NonDOH_DormitoryStyleVaccineStorageUnits.pdf

CDC COVID-19 Vaccine Storage Unit Recommendations

An **alarm system and back-up generator** are recommended to help reduce vaccine loss when unexpected temperature fluctuations occur.

Refrigerators and freezers storing vaccines **must be plugged directly into a wall outlet** with a plug guard installed to prevent accidental or intentional unplugging.

Units containing COVID-19 vaccine must **not** be plugged into a multi-strip power outlet, surge protector, or an extension cord. In addition, units must not be plugged into an outlet that is controlled by a wall switch, or GFI outlets.

COVID-19: When Is It Safe To Get Vaccinated?

TEXAS
Health and Human
Services

Texas Department of State
Health Services

When Is It Safe To Get Vaccinated?

Individuals who are not up to date with their COVID-19 Vaccines and/or unvaccinated individuals who were exposed to the COVID-19 infection should **not seek vaccination until quarantine has ended**. This is to reduce the risk of transmission to others (e.g., healthcare personnel, other clinic patients), because vaccination is not expected to prevent COVID-19 infection that could occur after the exposure for which the person is in quarantine.

Note: Vaccination may not prevent COVID-19 infection until 2 weeks after the primary series is completed.

COVID-19 Vaccine Product Ordering Updates

Oscar Paz

Program Specialist IV | Immunization Section

Janssen/J&J and Pfizer COVID-19 Vaccine: Checking Your Expiration Dates

TEXAS
Health and Human
Services

Texas Department of State
Health Services

Janssen/J&J COVID-19 Vaccine Expiration Date Extension

The FDA has authorized the extension of the expiration date of the Johnson & Johnson (J&J) COVID-19 vaccine from **nine months to eleven months** for refrigerated vials.

This shelf-life expiration extension applies to all lots of unpunctured vaccine vials that have been stored under refrigerated temperatures in accordance with the manufacturer's storage conditions. The fact sheet for the vaccine can be found [here](#).

<https://www.fda.gov/media/146304/download>

https://www.fda.gov/media/157554/download?utm_medium=email&utm_source=govdelivery

Pfizer COVID-19 Vaccine Expiration Date Extension

The FDA has authorized the extension of the expiration date of the Pfizer COVID-19 vaccine from **nine months to twelve months** for both gray cap and orange cap vials.

This shelf-life expiration extension applies to all vials that have been stored under ultra-low temperatures (-90 to -60 C) and in accordance with the manufacturer's storage conditions. The fact sheet for the Pfizer [Gray Cap](#) and Pfizer [Orange Cap](#) have been linked for reference.

<u>Printed Manufacturing Date</u>	<u>12-Month Expiry Date</u>

<https://www.fda.gov/media/153714/download>

Verify COVID-19 Vaccine Expiration Dates

Providers should regularly check inventory for expired vaccine and immediately remove expired inventory. **If you are not sure, quarantine your vaccine to ensure that it has been verified.**

Expired vaccines should be reported as waste only after expiration has been confirmed by the manufacturer.

To obtain the current expiration status of your COVID-19 vaccines, please utilize the appropriate manufacturer Vaccine Expiration Date Lookup Tool as expiration reports in VAOS **may not** reflect current expiration.

[J&J Expiration Date Lookup Tool](https://vaxcheck.jnj/)

Moderna COVID-19 Vaccine Ancillary Kit (1:1)

TEXAS
Health and Human
Services

Texas Department of State
Health Services

Moderna COVID-19 Vaccine Ancillary Kit Update

1:1 Ratio

Moderna COVID-19 vaccine shipments will now come with ***one ancillary kit*** (1 ancillary kit to 1 carton of vaccine, instead of 2 ancillary kits to 1 carton of vaccine).

This change will take effect with orders placed beginning on Monday, April 11, 2022, at 10 am ET.

If you have any questions, please call (833) 832-7068 (Option 2) or email COVID19VacShipments@dshs.Texas.gov.

Finding Your Provider Pin & Creating a COVID-19 Vaccine Transfer Request

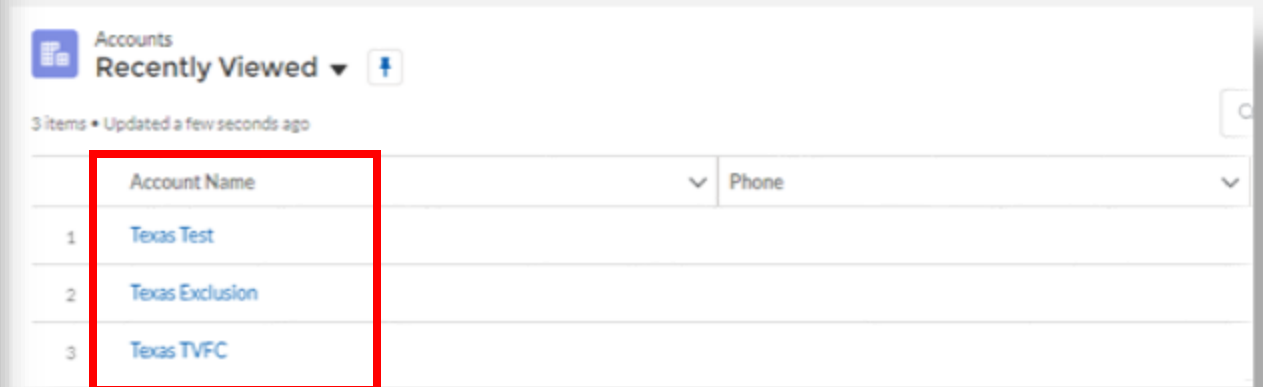

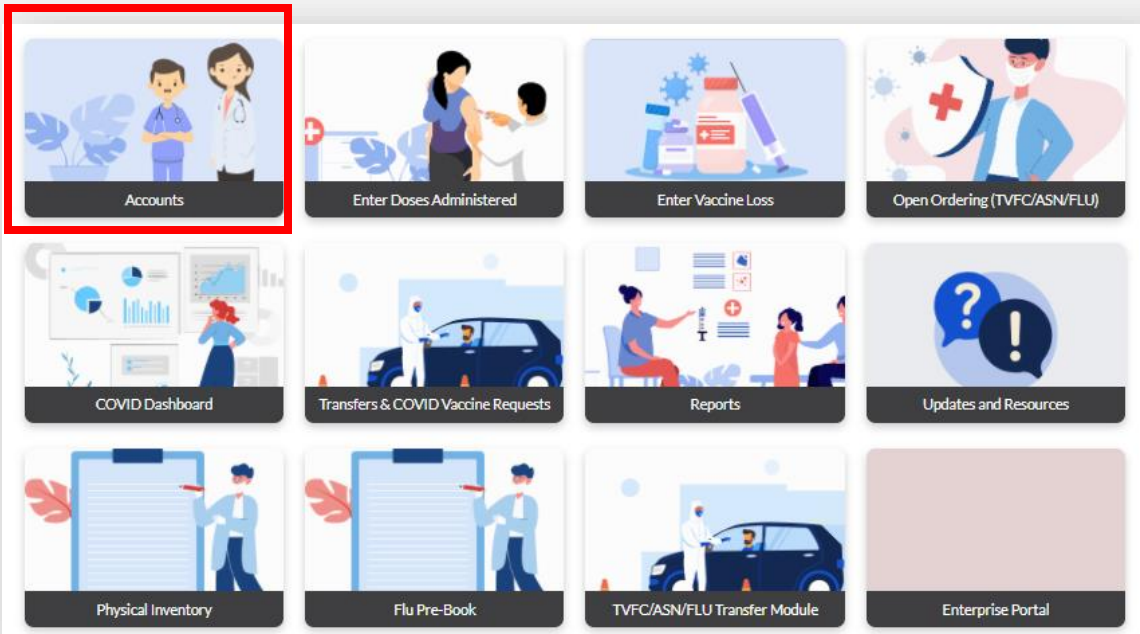

TEXAS
Health and Human
Services

Texas Department of State
Health Services

Know Your Provider Pin

1. Log into VAOS at <https://texasvaccines.dshs.texas.gov/> and navigate to the **Accounts** tab.
2. Select your **Account name**.

Know Your Provider Pin

3. View your **Provider Pin**.
4. You will also need the pin of the Receiving Provider to complete a transfer request.

Vaccines can **only** be transferred to an **approved COVID-19 vaccine provider**.

The screenshot shows the 'Account Texas Test' page. The 'Provider PIN' is 300528, which is highlighted with a red rectangular box. Other account details include the billing address (1000 Congress Avenue, Austin, TX 78701) and account owner (Julia Durnan). The page also features a 'Temperature Log Upload' section and a 'Related Persons' table.

Account Name	Facility Status
Texas Test	Active

Parent Account	Account Record Type
	Vaccine Ordering

COVID-19 Vaccine Waste Guidance

Waste Disposal and Reporting Resources

While it is important to try to use every dose of vaccine possible, that should not be at the expense of missing an opportunity to vaccinate every eligible person when they are ready to get vaccinated.

Visit the DSHS COVID-19 Vaccine Disposal Guidelines for details on disposing waste:

<https://dshs.texas.gov/immunize/covid19/COVID19-Vaccine-Disposal-Guidelines.pdf>

COVID-19 VACCINE DISPOSAL GUIDELINES

The Centers for Disease Control and Prevention (CDC) states that COVID-19 vaccines should be treated as regulated medical waste in its disposal requirements from their [Identification, Disposal, and Reporting of COVID-19 Vaccine Wastage](#) notice. The CDC advises providers to waste COVID-19 vaccines in accordance with local regulations.

For guidance on reporting Moderna doses wasted, see the following guide:

<https://www.dshs.texas.gov/immunize/covid19/Moderna-Wastage-Table-Texas.pdf>

Moderna 10/14 COVID-19 Vaccine Wastage Guidance

For guidance on reporting waste in VAOS, see the following guide:

<https://www.dshs.texas.gov/immunize/covid19/Waste-in-VAOS.pdf>

COVID-19 Vaccine Waste Reporting Waste and Generating Waste Reports in VAOS March 28th, 2022

[View the VAOS Job Aid Catalog](#)

For questions about reporting waste, call (833) 832-7068 (Option 2) or email COVID19VacShipments@dshs.Texas.gov.

Billing Resources

Additional billing information, including CPT Administration and Product Codes for the anticipated Moderna 2.5 mL Booster Only Product, can be found at the following AMA resources.

AMA COVID-19 CPT Vaccine and Immunization Codes:
<https://www.ama-assn.org/practice-management/cpt/covid-19-cpt-vaccine-and-immunization-codes>

AMA Find your COVID-19 Vaccine CPT Codes:
<https://www.ama-assn.org/find-covid-19-vaccine-codes>

The image displays two overlapping screenshots of the American Medical Association (AMA) website. The top screenshot shows the 'Find your COVID-19 Vaccine CPT® Codes' page, which includes a search bar and introductory text about the resource. The bottom screenshot shows the 'COVID-19 CPT vaccine and immunization codes' page, featuring a 'CONTENTS' section with links to 'Unique CPT codes approved for COVID-19 immunizations', 'Category | vaccine descriptors', 'Vaccine resources', and 'CPT® Assistant provides guidance for new codes'. Both screenshots show the AMA logo and navigation elements like 'Join', 'Renew', and 'Enter Search Term'.
